College Essay **Easy**: Workshop Objectives

What to Expect from the Workshop:

Mastering the College Essay Process:

Participants will gain comprehensive skills and knowledge to effectively navigate the entire process of writing a college essay, from brainstorming to final editing. By the end of the workshop, students will feel confident that they have crafted a compelling and impactful essay.

Stand Out Techniques:

Participants will learn strategies to make their college essays stand out among thousands of applications, showcasing their unique voices and perspectives.

CEES Brainstorming Mastery:

Students will master the use of the College Essay Easy System (CEES) to brainstorm and generate compelling topics for all their college admissions essays.

Navigating Tricky Topics:

Participants will learn how to effectively handle challenging or sensitive topics in their essays, turning potential obstacles into opportunities to demonstrate maturity and insight.

Writing Supplements and Essays:

In addition to the common app essay, students will gain skills to write additional essays required for supplements, honors programs, and scholarships.

Utilizing Constructive Feedback:

Students will actively seek and incorporate constructive feedback from instructors to enhance the clarity, coherence, and impact of their essays.

Preparing to Thrive in a College Environment:

By the end of the workshop, students will be better prepared to showcase their potential to thrive in a college environment and address the key attributes colleges seek in applicants.

Goals and Outcomes:

Our primary goal is to equip ALL students with the technical skills to craft compelling essays and the ability to effectively communicate their readiness and potential to contribute positively to the college community.

This workshop will provide the foundation for students to present their best selves through their college essays, enhancing their chances of admission to their desired institutions.
